Temperance Life-Bitters,
AND CHINESE BLOOD-PILLS.

☞ The Greatest Secret Discovered! ☜

PURGE—purge purge has been the cry for the last few years. This has been effectually tried, and yet sufferers have multiplied, and died; and why? Not because purging was not necessary, but *too much* has been done without the tonic to follow, and sustain the system. Purge, you must! The sickly humors of the blood must be carried off or the accumulation of them prevented. Prevent, then, the growth of such humors.

Why do the Chinese live to such immense ages, and still retain the powers of youth or middle age? Because they *purify* the blood. *The Chinese* Blood Pills, so called because they work upon and cleanse the blood—are the standard remedy. These Pills will do it; and the Temperance Bitters, taken as directed, will strengthen the system and prevent the accumulation of the base humors which infest the blood, and which only increase by purges, unless the Bitters are taken after. Buy, then, these Pills and Bitters. Take weekly the Pills and daily the Bitters; and if *you are* or have been invalids for days, weeks, months, or years, you will find the sickly humors drawn off, and prevented from a return, and the *sallow yellow hue* of sickness change rapidly to the *full blooming glow of health and youthful buoyancy*.

There are cases so numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and *use no other*, and health and strength shall be yours. See wrapper and directions that come with them.

FRAUDULENT COUNTERFEITS

will be attempted. Buy no remedy of the kind unless it have my name O. C. Lin, M. D. on the wrapper, and also the notice as follows:

"Entered according to Act of Congress, A. D. 1841, by Thos Connell, in the Clerk's Office of the District Court of the United States for the Southern District of New York."

Warranted the only genuine.

Messrs. Comstock & Co., New York, are the sole wholesale Agents for the United States and all neighboring countries.

Ho! Ye Red Heads & Grey!
PHENOMENON IN CHEMISTRY.
Last India Hair Dye.
Colors the Hair and will not the Skin!!!

THIS Dye is in form of a Powder which in plain matter of fact may be applied to the Hair even night; the first night turning the lightest *red* or grey hair to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, *keep* his hair any dark shade or a perfect black; with a positive assurance that the powder, if applied to the skin, will not color it. *There is no trouble in removing it from the hair, as in all powders before made.* By an occasional application, a person turning grey will never be known to have a grey hair! Directions complete with the article. There is no *color* in this statement, as one can easily test.

☞ *These facts are guaranteed by the gentleman who manufactures it, who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy and many other works well known and widely celebrated by the public.*

This Dye is sold by COMSTOCK & Co., 71 Maiden Lane, New York.

PROSPECTUS OF THE
Maine Farmer and Mechanics' Advocate.
(NEW SERIES.) E. Holmes, Editor.

THE proprietors of the Maine Farmer, in accordance with the suggestions of their friends, and with a view to meet the wishes of a large number of their subscribers, have come to the conclusion to make a change in the form and size of the paper, on the first of January next. It will be about double the size that it now is.

They propose to issue a paper, once per week, in a large folio size, to be called Maine Farmer and Mechanic's Advocate. One page is to be devoted exclusively to Agriculture one to Mechanical subjects, frequently illustrated with engravings one page to the current news of the day, with the proceedings of the Legislature and of Congress when these two bodies are in session and the remaining page to be devoted to miscellaneous reading, poetry, advertisements, &c.

They presume it is not necessary to enlarge upon the peculiar character or future course of the paper now offered to you. The Maine Farmer has been in existence nine years, steadily and perseveringly devoted to the interest of the productive classes. It will continue, as hitherto, a steady and undeviating friend to the Farmers and Mechanics; zealously urging forward the spirit of improvement, and encouraging the efforts of honest industry. Many of our best practical Farmers have long been engaged in contributing to the columns of the Farmer. These as well as others will continue their aid and assistance in the Agricultural portion, and we have the assurance of many excellent Mechanics that they will also contribute to the columns of their department.

Terms $2 per ann. $2 50 will be charged if payment is delayed beyond the year.

If any person who will obtain six responsible subscribers, and act as Agent, shall receive a copy of the Paper as he keeps that number good, for his services.

New READING BOOK for Schools.

THE MONITORIAL READER, or a Monitor to Youth, holding up to their view Models whereby to form their own Characters. By DANIEL ADAMS, Author of Adams's New Arithmetic.

EXTRACTS FROM THE PREFACE

"THE MONITORIAL READER possesses distinctive traits. The object is to supply what is believed to be the great desideratum in our schools a series of exercises relating to what concerns the practical matters of life truth, integrity, honesty, industry, temperance, forethought, frugality, patient endurance of adversity, and whatever else tends to form and fix the character of youth.

We wish to impress it on the minds of those, into whose hands these exercises shall come, now, in this seed-time of life, what is here so abundantly inculcated, that 'Every man is emphatically the architect of his own fortune' that with themselves it lies whether they shall ever be any thing or nothing that a monied capital to begin with does not weigh a whit in the balance for or against them that coming into life with health, strength, capacity for labor, good education, a useful and respectable trade, habits of industry, sobriety, punctuality, frugality, and, above all, with a GOOD AND UNSULLIED CHARACTER, they have the best of all capital a moral capital the noblest of all power moral power and the most certain means of honest and honorable accumulation and fortune, and may be sure, under circumstances ordinarily propitious, to rise to that competency of influence, respect, and general confidence, and that honorable measure of wealth and independence, which should fully satisfy a reasonable and virtuous ambition."

EXTRACTS FROM RECOMMENDATIONS.

The influence will all be found on the side of virtue, morality and religion. Occasional comments are given. Difficult or unusual words are defined Prose and poetry are suitably intermingled. It is hardly to be imagined that this book should fail of popularity. It certainly would not, had it not so many competitors that have got the start of it in the race. As it is, its mettle is such as to give it fair promise of ultimate success in the contest Boston Recorder.

Dr. Adams: Having examined to some extent your Monitorial Reader, I am pleased with its plan, its object, and the manner in which it has been executed. It seems adapted to the intellectual and moral improvement of those for whose use it was designed. I trust it will prove to be what its author fondly anticipates.

(Rev.) Z. S. BARSTOW, Keene.

It is just such a book as our New England boys and girls will be glad to see, for it inculcates in a pleasing manner, industry, frugality, truth, honesty, temperance, peace, kindness, fortitude, and a cheerful piety. The Vocabulary, at the end, and the arrangement for defining words, will add to its value in the hands of a judicious teacher.

(Rev.) ABIEL A. LIVERMORE, Keene.

We have also recommendations from a number of individuals and periodicals, among which are D. Crosby, Preceptor of the High School Nashua; J. Newton Brown, Professor of Theology at New Hampton. It is also adopted by the Associations of School Teachers in Cheshire and Hillsboro' counties, and by the School Committee of Concord.

About 8000 copies have been published, and mostly disposed of.

THE LION OF THE DAY,
THE OLD VEGETABLE OR GERMAN PILLS.
☞ *POSITIVE, OR NO PAY.*

THEY are highly recommended by Dr. Valentine Mott, of the city of New York. A medicine to prevent the attacks of disease, to keep the system in healthy action, and to eradicate as soon as possible every disease as soon as it appears, has been the great study of medical men for many years without success. The subscriber, however, not expecting his Pills to cure all the ills which flesh is heir to, confidently recommends them as certain and efficacious in the following: Headache, Jaundice, Dyspepsia, Cholic, billious, remittent, and intermittent Fevers, diseases of the Liver, and Spleen, Female Obstructions, Rheumatism, Foul Stomach, Dizziness of the Head, Loss of Appetite, Weakness, and trembling of the Limbs, Nausea, or sickness at the Stomach, Flushings of the Face, Summer Complaints, Measles, Scarlet Rash, and will be found invaluable in complaints of the Digestive Organs, and particularly those arising from impurity of the blood. As a preventive against Fevers, no persons should go to a warm climate without a box of these Pills; they are entirely of vegetable ingredients, and can be taken safely without fear. Price, 37½ cents a box

For sale at A GEYER'S Drug Store, 104 Hanover street, corner of Salem street, Boston, General Agent for the N. E. States, and may be had at most of the Drug Stores in the U. S. and in the Canadas.

The genuine Pills have the written signature of *MERRITT GRIFFIN* on each box.

☞ The New York papers are filled with the Governor's message to the Legislature. The Albany Daily Advertiser says, of the message: "His Excellency refers in moderate and dignified terms to the controversy which has been for some time carried on between the Executives of New York, Virginia and Georgia submits a brief but comprehensive history of the McLeod case presents in a condensed form and with admirable clearness, the New York school question recommends the subjects of agriculture and education to the continued favor and protection of the Legislature and discusses at considerable length, and with an eloquence and ability that will challenge the admiration of all parties, the great question of *Internal Improvements*."

Charleston Academy.

The proprietors of this excellent institution are about making an effort to relieve it from embarrassment, that it may go on its way rejoicing. Christopher T. Norcross, Esq. the Agent, is now engaged in obtaining subscriptions, and all who feel an interest in sustaining an institution that has accomplished much good, and is full of promise for the future, will have an opportunity to contribute.

☞ The Massachusetts Legislature was organized on Wednesday last by the choice of Hon. Josiah Quincy, Jr. President of the Senate and Chas. Calhoun, Clerk. Hon. Thomas Kinnicutt, of Worcester, Speaker, of the House The election sermon was preached by Rev. Mr. Cannett.

☞ During the last year in the city of Philadelphia and incorporated districts of the Northern Liberties, Spring Garden, Southwark, Kensington and Moyamensing, thirteen hundred and forty-three new buildings have been erected.

☞ The city of Portland seems to be wide awake in the temperance cause. The meetings of the Washingtonians are attended by thousands, and the good work goes on as though God was in verity helping men. Shall we sleep here and fail of a blessing?

☞ John Lee, Esq. has been chosen Representative, in Bucksport, in place of Mr. Homer, resigned, on account of the ill health of his family. This will be a thorn to the whigs.

☞ The President has sent Mr. Barker's name into the Senate. It is said that it will be supported by the locos, and opposed by the whigs.

☞ The Globe is in favor of the President adopting the Sub-Treasury, with a new name.

☞ The ship Illustrious has sailed from New York for Burmuda.

Stupendous Fraud.

In the Alabama Legislature W. Young, Chairman of the Bank Committee, says that the investigation already made by the Committee had elicited facts "conductive to show that a plan had been set on foot in Tascaloosa last winter, for the purpose of defrauding and plundering the banks; which *plan* extended to three hundred persons, many of whom were of high standing; others were mere *strikers* systematically classified, and arranged so as to accomplish the end."

For the Whig & Courier.

Mr. Editor: Permit me to call your attention, and through the columns of your paper, the attention of your readers to an evil, which, during the last few years, has increased in an alarming degree. I refer to the *mania* that exits among our farmers, merchants and mechanics, with fortunes hardly adequate to the support of their families, of giving their children, what is called a liberal education. The opinion seems to be prevalent among parents, that if they can, by dint of saving, and practising the severest economy, support their favorite son, the "bright particular star" through a collegiate course his race in this life will be like the course of the comet, bright and glorious. Now, sir, although I admit that no more difficulties lie in the path of the professional man, than in the path of the merchant, &c. nay, more, that every liberally educated young man, by pursuing studies, and exercises suited to his abilities, can raise himself to affluence and highest honors of the Republic, yet I affirm, that the parent who sends his son to college, without the means of supporting him *well* and respectably in the general acceptation of the word, not only acts unjustly towards the rest of his family, but does an irreparable injury to the son.

The *novice* enters college with rugged health and full of hopes of future pleasure. He has been led to expect that college life is like walking through a beautiful flower-garden no thorns, nothing but enjoyment and pleasures. Alas! too soon do his bright hopes fade! His health begins to fail, from the constant attention, it is necessary, he should give to his studies; the fear of sickness and the thought that he is far from home, with no mother or friend to care for him, weigh him down; he becomes morose, and the bright smile that was once continually upon his face, has fled forever. His expenses increase and he has no resources by which he can meet them. Debt stares him in the face! a *college* debt! which unlike any other, no legal limits, no bankrupt laws will blot out. He is liable to fall into a thousand temptations which exist nowhere but on "classic grounds;" he neglects his daily exercise, and graduates, (if he lives long enough) devoid of every particle of energy and ambition. All these evils and many more flow from the want of money. And in the case of the collegian, the want of money, not only robs him of present comforts, but even takes away his native energy, strength of mind, and promise of future usefulness.

From what I have said, Mr. Editor, it may seem that I advise parents not to send their children to college. Far from it. But I do advise them to set down and calculate the cost of such a measure, and if they find that their purses will not bear so heavy a draft, let them depend upon it that a *trade*, is worth all the professions under the sun.

Painting Houses.

It has long been a subject of inquiry as to the *best* time to apply paint to the clapboards of houses for *durability*. Repeated experiments have been made, within twenty-five years past, which have resulted in the convictions, that paint applied between November and March, will stand more than twice as long as that which is spread in the warmest weather. The reason is obvious; for in cold weather the oil and the component parts of the paint, form a hard substance on the surface of the clapboard, nearly as hard as glass, and not easily erased or even cut with a sharp knife and will not soon wear off; whereas paints applied in the months of July and August and more especially if in a severe drought, the oil immediately penetrates into the wood like water into a sponge which leaves the lead nearly *dry* which will soon crumble off.

The Knickerbocker, January, 1842.

We have received from Bugbee the January number of this able Magazine. The following list of regular papers form the body of the work: Parallel between Bonaparte and Wellington; Fast Happiness, by Clarence Herbert The Country Doctor, Number Eight Lines to a Dead Child, The taking of Basin House Life in Hayti, by an American a thought of the Pilgrims, by Mrs. M. E. Hewett A Pic-Nic, by the 'American in Paris' Stanzas: Reciprocal Love Torrijos and his companions, An Authentic Sketch Balboa on the Andes The Quod Correspondence, Number Seven My Grandfather's Port-Folio, Number One.

Most of these are of great excellence; and then we have the usual variety of *Literary notices*—a very supplied Editor's Table, and a Literary Record.

The readers of the Knickerbocker always find a rich intellectual repast spread before them I. editors have been so long in the literary vineyard, and are themselves such able cultivators that there is a certainty of a good crop. The Knickerbocker is always a literary favorite with us, and we rejoice that it can now be procured so easily by our citizens, for Bugbee gets the numbers in good season, and free of postage.

Hunt's Merchant's Magazine: January, 1842.

The January number of this Magazine is of great importance to commercial men, and all who feel an interest in the commercial affairs of the country, has been received by us from the Agents, Smith and Fenno.

The following original papers which it will be seen embrace a great variety of subjects, are to be found in the present number.

Impolicy of Countervailing Duties, by Condy Raguet, L. L. D., President of the Chamber of Commerce, late Charge D'Affaires of the United States Court of Brazil; author of "A Treatise on Currency and Banking," and of "The Principles of Free Trade Illustrated,".

Morals of Trade, by J. N. Bellows, of N. York

New Sources of Trade, No. I, The Barby States, by Henry A. Buckingham, of New York

Commercial Guilds of Russia, by Charles Clark, of St. Petersburgh, Russia, Abuses of Classification The Mercantile Class by Wm. Dolby, of New York Remarks on "the Computation of Interest" by Wm. Palmer, of New York Laws Relative to Debtor and Creditor, No. 13: Of England The Interests, Rights, and Remedies of the Creditor by an English Barrister at Law Familiar Scenes in the Life of a Clerk, No. 2 by the Author of the "Victim in Chancery," Condition of Poland by Gaspard Tochman Commerce of Southern Peru The Currency Method of Correcting the Currency without the aid of a United States Bank by J. Louis Tellkampf, L. L. D. Professor of Civil Polity in Union College.

We find also the usual amount of interesting statistical information, which, to many minds, is of great value, and which, in all time to come, will be highly prized as matters of reference. He who would be a wise and good merchant, should cherish this Magazine, and gather of its rich fruit to store his intellectual garner.

Lumbering on the Penobscot.

There are now 500 teams hauling Lumber into the Penobscot waters. The expense of supporting these teams and "running" the lumber will amount to one million of dollars, or two thousand dollars to each team. The stumpage at four dollars per thousand, which is about an average of the prices paid, will amount to another million of dollars. The cost of the teams is not less than $250,000. Thus there is invested in the business on the Penobscot alone, a capital of two and a quarter millions of dollars. It is estimated that these teams will get in during the winter two hundred and fifty million feet of lumber, which will be an average of 500,000 feet to each team. This lumber will be worth ten dollars a thousand at the mills, which will amount to two and a half million of dollars. Deduct the amount that the teams will depreciate in value, and it will give a nett profit of only about 20 per cent, on the capital employed, saying nothing about the risk of getting the lumber to market, which is no inconsiderable item; for some of it will probably be two or three years coming down the river.

What amount there is being done on the Kennebec and other waters in the State, we can make no accurate estimate, but should suppose that it will considerably exceed the business of the Penobscot, and that to estimate the capital employed in the lumbering business, in this State, at the present time, at five million dollars, will be within the real amount. [*Piscataquis Herald.*

From Buenos Ayres.

By the Hamburg brig Maria, Nye, from Buenos Ayres, we have the British Packet of November 6. It contains information of the death of General Lavalle, who was overtaken and killed at Jujury, while flying toward Bolivia, after his defeat by Oribe.

Avellaneda, Governor of Tucuman having been betrayed into the hands of Oribe, was shot, with five others.

He is charged with having had some part in the death of General Heredia, former Governor of Tucuman, who, it appears, had been assassinated in the attempted revolution which made Avellanda Governor. Avellanda was president of the House of Representatives.

Thomas Boston, seaman on board the U. S. sloop-of-War Decatur, fell from the fore yard of that vessel, Oct. 27, and was killed. He was a native of Glasgow, Scotland.

CONGRESS.

Thursday, Jan. 6.

In the House of Representatives to-day refused having been made to suspend the rules for the reception of petitions, reports being in order, were called from the Committees, and many of a private character made.

A resolution reported by Mr. Fillmore from the Committee of Ways and Means, directing that Committee to inquire into the expediency of reporting a bill authorizing appropriations for such necessary objects, as had generally, contrary to law, been included in appropriation bills, was adopted.

Mr. Saltonstall, from the Committee on Manufactures, reported a resolution authorizing that Committee to send for witnesses, and take testimony on the subject of the present Tariff laws, of their operation on the interests of the country, and the alteration those interest may require.

This was debated until the expiration of the morning hour and lies over

Several Senate bills of a private nature were twice read and referred, and several Executive communications laid before the House, among which was, from the Secretary of State, in accordance with a resolution of the House, a statement of the aggregate amount of each description of persons within the several Districts and States of the United States by counties and towns.

On motion of Mr. Fillmore, the Treasury Note Bill which authorizes an issue of not more than five millions at any one time outstanding; the period of their issue to be limited to one year; and to be terminated sooner if the loan shall be made negotiable was taken up in Committee of the Whole on the State of the Union, (Mr. Hopkins of Va. in the Chair.)

Mr. Fillmore as Chairman of the Committee who reported the bill, made a brief and pertinent exposition of the circumstances connected with the reporting of the bill.

Mr. Wise proposed an amendment pending which the Committee rose and the House adjourned.

In the Senate, Mr. Phelps presented resolutions of the Legislature of Vermont in favor of the ineligibility of the President after a 4 years term in favor of holding Presidential Elections throughout the United States on the same day, and for a Protective Tariff.

The bill for the relief of Margaret Barnes was passed.

Other private bills were considered, and petitions presented, among which were those from New York and elsewhere against the postponement of the operation of the Bankrupt Law.

Mr. Clay introduced a bill to amend the several acts respecting copy-rights.

The Exchequer Plan was discussed by Mr. Woodbury, who elaborately discussed its details, opposing it, except the provision relating to the collection of moneys, which savored of the Sub-Treasury system, and to that extent met his approbation.

Mr. Evans will reply to Mr. Woodbury. The Senate adjourned over to Monday.

The Past and the Present.

The following beautiful passage is extracted from the late Thanksgiving sermon of Rev. Mr. Peabody, of Portsmouth, N. H.

"Ours, it is to be feared, is an irreverent age and land. The number of those who neither fear God nor regard man, is greatly multiplied. The whole providentially arranged system of things seems to be reversed: and, if there is any one motto, which might be inscribed on the surface of society as it now is, or as modern innovations and radicals would have it, it would be this: "The elder shall serve the younger." Youth no longer hangs upon the counsels of age and experience, or deigns to ask of the former times; but, the less one knows of the past, the surer and wiser guide for the future is he esteemed by many. Men often talk of the past, as if God had never worked, virtue never lifted a finger, and wisdom never given a true response; until now. We hear much concerning the *dead past*; and are bidden to let it *bury its dead*. On how soon, if our children are no wiser than ourselves, will they be talking the same unmeaning cant about our boasted present."

American cotton spinners may take a hint from the following paragraph in a German paper:

"The treaty of commerce with Holland has already began to bear fruit. Yesterday there arrived at the Custom-house of Strasburg the first bales of cotton, which will pay duty at the land frontiers. These will be followed by other colonial produce. We know, in fact, that about 2000 bales of cotton have been purchased at Liverpool for several houses at Strasburg and in the Upper Rhine, and that some of these bales are already at Mentz, waiting only for French boats to bring them up the Rhine to Strasburg. The Dutch boats of the lower Rhine are too heavy to come beyond Mentz, where the river in many places has not sufficient depth of water They are consequently obliged to stop at Mentz and tranship their cargoes into the lighter French boats."

Food in Former Ages.

The difference between the diet of the ancients and that of us moderns is very striking. The ancient Greeks and Romans used no alcoholic liquor, it being unknown to them; nor coffee, nor tea, nor chocolate, nor sugar, nor butter—for Galen informs us he had seen it but once in his life. They were ignorant of the great number of our tropical spices, as clove, nutmeg, mace, ginger, Jamaica pepper, curry, Pimento. They used neither buckwheat, nor French Beans, nor spinach, nor sago, nor tapioca, salap, arrow root, nor potatoes and its varieties, nor even the common, but a sort of marsh grown bean. Nor many of our fruits, as the orange, tamarind, nor American maize. On the other hand, they ate substances, which we now neglect the mallow, the herb ox-tongue, the sweet acorn, the lupin. They used great quantities of radish, lettuce and sorrel. They liked the flesh of wild asses, of little dogs, of the dormouse, of the fox, of the bear. They ate the flesh of parroquets and other rare birds; and of lizards. They were fond of a great many fish and shell-fish, which we now hold in no esteem. They employed as seasonings, rue and assafœtida.

Eloquence of Hon. Rufus Choate.

The Reporters were put completely to fault on Wednesday night by Mr. Choate's Lecture upon the Literature of the Sea. He fascinated and bewitched a vast audience for an hour and a half, but not one of the reporters could make a half column of what he said.

"Why did'nt you get a fuller report," we asked.

"Can't report chain lightning, sir. There are no *words* in the Aurora Borealis. Never practiced writing out the *motion* of the stars."

We fully comprehended the reporter. [N. Y. Express.

The Green Mountain Argus, gives the following description of a Hoosier's house, by one of the tribe:

One side was hung with divers garments,
The other spread with skins of varmints;
Dried punkins over head were strung,
Where venson hams in plenty hung;
Two rifles placed above the door
Three dogs are stretch'd upon the floor;
Where half a dozen Hosieroons,
With mush and milk, tin-cups and spoons;
White heads, bare feet, and dirty faces,

Important News from Providence.

JAYNE'S EXPECTORANT TRIUMPHANT.

A CARD. I give to the public the folldwing facts, that all interested may be benefitted by the operation.

I am sixty four years of age, have been four years very seriously afflicted with ASTHMA have tried several physicians, and taken many "certain" cures, all of great expense and without any essential advantage. For two years I was not able to pass the whole of a night in my bed On consulting Doctor Wadsworth, of this city, about my case, he advised me to take Dr. Jayne's Expectorant. This medicine operated as he told me it would. I have taken five bottles of it, and consider myself in a manner cured by it. I can now lay comfortably all night, am free from the tightness of the lungs and weakness of the stomach which so dreadfully distressed and reduced me. In short life had become fairly burdensome to me now I enjoy it, though I am not entirely free from other infirmities attendant upon old age.

Dr Truman Abell of Lempster, N. H, writes that he confidently recommends its use in all complaints of the chest, as equal, if not superior to any other medicine within his knowledge

Dr. Amory Hunting of Franklin, Mass, writes that after having prescribed the usual remedies without relief, and having consulted with several eminent Physicians, he has found the Vegetable Pulmonary Balsam to have had the desired effect, and recommends it as a safe, convenient and efficacious medicine

The vegetable remedy for disease arising from the impurities of the Blood, Dyspepsia, Scrofula, and all chronic diseases, also a substitute for Calomel as a cathartic in fevers, and all bilious affections

FROM the extensive applicability to general disease, which this remedy possesses, as is demonstrated in the detailed cures of the various complaints, the proprietor feels justified in claiming for it superior consideration The numerous testimonials of its effects, from physicians, druggists, and distinguished individuals, places it beyond the doubtful remedies of the day and entitles it to special confidence

These Pills have acquired an unprecedented celebrity as an anti dyspeptic and anti bilious remedy, and this reputation being fully sustained by the high character of its testimonials and the increasing demand for the Medicine, it is only necessary for the proprietor to continue the caution that the public may not mistake other medicines, which are introduced as Tomato preparations, for the true Compound Tomato Pills

LORRAINE'S PILLS,

OR VEGETABLE UNIVERSAL MEDICINE CURATIVE OF THE French College of Health, in Paris.

THE following letter was received yesterday by mail from Salem It gives another evidence of the great success of *Lorraine's Vegetable Universal Pills*

SIR I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption The general inutility of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit I accidentally noticed a remarkable cure by Lorraine's Pills and was induced to give them a trial I sent to Boston and got a box By the use of them I found immediate relief and was soon restored to a perfect state of health

J E NEWHALL

Salem, 21st May 1841

The following letter from J B Light, Esq is worthy of notice

SIR It took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine

Yours truly, J B LIGHT

Nov 20th, 1841

[From Boston Daily Mail]

Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption Lorraine's Vegetable Pills have done both

SIR I have been effectually cured of a severe headache by the use of Lorraine's Pills

SARAH NOYES

SIR My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c, together with general debility, but has had her health restored by Lorraine's Pills

Family Medicine

SIR I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured I would not be without them they operate mildly and never fail to give immediate relief Until I used these Pills I was obliged to pay from 2rom 2a to $100 per year for medicines and physicians, since then I have had no other doctor than Dr Lorraine's Pills JAMES NEAL

Sick Headache

Mrs Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her It has surpassed any thing that has been brought to the public notice I have been cured of a sick headache that had afflicted me for years by the use of Lorraine's Pills

THE CONDITION

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations Lorraine's Pills admirably effect this because they cleanse the bowels and purify the blood

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables all so admirably combined as to purify, nourish and invigorate the human system

[From the Boston Chronicle, Jan 10]

☞ We see by an advertisement in another column that Messrs Comstock & Co, the Agents for Oldridge's Balm of Columbia, have deputies to sell that article in Boston and elsewhere We know a lady of this city whose hair was so nearly gone as to expose entirely her phrenological developements, which considering that they betokened a most amiable disposition was not in reality very unfortunate Nevertheless she mourned the loss of locks that she had worn, and, after a year's fruitless resort to miscalled restoratives purchased some months ago, a bottle or two of Oldridge's Balm, and she has now ringlets in rich profusion, glossy, and of raven blackness We are not puffing none of the commodity has been sent to us, and, indeed, we do not want any, for though we were obliged to wear a wig a year ago we have now, through its virtue, hair enough, and of a passable quality, of our own
